

RAIN LEGGINGS
ABSTRACT OF THE DISCLOSURE

[009] According to the first embodiment of the present invention, a protective rain legging is disclosed, comprising: a waterproof leg encircling portion with an inner side, an outer side, a top opening and a bottom opening. The top opening is higher on the outer side of the leg-encircling portion, and slopes downward towards the lower inner side of the top portion of the legging. An attachment means is fixedly attached to the outer side of the top opening, for attaching the leg-encircling portion to the waist portion of a garment worn by the wearer.

Respectfully submitted,
